

PICTORIAL, GOMBA WOMEN ENVIRONMENT PROJECT @15 MONTHS 1.09.2011 – 30.11.2012

	STATUS/ PROBLEM	SOLUTION
Problem and Status Quo	<div></div> <div>Women most Affected by Climate Change, more so in Africa, Young girls walk long distances to fetch & carry Firewood irrespective of weather conditions</div>	<div></div> <div>Women should be /and are Part of the solution, as they Also contribute to the problem</div>
Problem Causes	<div></div> <div>Forests and trees cut for Beans planting</div>	<div></div> <div>Bare valleys replanted with Ficus and beans planted underneath the ficus trees</div>
Problem & Solution	<div></div> <div>Forest /Trees cut for firewood</div>	<div></div> <div>Faith based sensitization by the Mosque</div>
Problem & Solution	<div></div> <div>Traditional cooking place, uses a lot of firewood</div>	<div></div> <div>Fixed Energy saving stove, saves firewood</div>

	 <p>Ready to plant but do not own land</p>	 <p>Plant along Boundaries and within the garden-Agrofore</p>
<p>Attachment</p> <p>Plant With Passion and for SADAKATUL JARIA</p>	 <p>Shiekh explaining fruit tree planted as SADAKATUTUL JARIA(lasting Gift to Alllah)</p>	 <p>Fast growing Paw Paws as Sadakatul Jaria, health and wealth</p>
<p>Sustainability</p> <p>As trees take 3-5yrs to mature, Economic activity,</p>	 <p>Members' Potatoes planted on Hired Farm land</p>	 <p>Beans,& Maize planted within Garden, for Domestic & Commercial purposes</p>
<p>Economic activity</p>	 <p>Member's Chicken/ Layers</p>	 <p>4 trays of Eggs every day an income of about US \$15@</p>

<p>Range of economic Activities</p>	 <p>Goats multiply very fast, droppings used for garden</p>	 <p>Passion fruit farming supported by the growing trees</p>
<p>Multi purpose, Activities , reduces on trees cut and it is also for economic purposes</p>	 <p>BEAN HUSK,& OTHER WASTE for charcoal briquettes</p>	 <p>Ready charcoal Briquettes</p>
<p>Sustainability</p>	 <p>Traditional Coffee Nursery bed</p>	 <p>Avocado & other Fruit trees Nursery</p>
<p>Challenges & designed Solutions</p>	 <p>Changed weather partner, long droughts, dry trench</p>	 <p>Water harvesting tank by Mosque</p>

<p>Mosque far from most members was another Challenge as is trees competing With humans</p>	 <p>Individual water Harvesting Tanks</p>	 <p>Underground water ditches lined with polythene</p>
<p>Grazing Animals and Bush Fires,</p>	 <p>Bush Fires for/ and Grazing Animals</p>	 <p>Natural fences, protecting against intruders</p>
<p>Pests</p>	 <p>Termites destroy planted trees</p>	 <p>Gomba Green Brigade do the Pest Control</p>
<p>Best Practices</p>	 <p>Adopted Agro forestry even for pine trees, intercropped with Beans, Cassava and Coffee</p>	 <p>Bring husbands on Board, for entire Family</p>
<p>Best Practice</p>	 <p>Green Brigade, involve the young men in planting and growing, for family prosperity and cohesion</p>	 <p>Involve other Faith, for Community Cohesion, Margaret receiving a water Tank</p>
<p>Future</p>	<p>From the current 5 mosques and 32 ladies to reach all 51 mosques, 2540 women & to plant 762,000 trees</p>
